Republican Leaders Plan Platform Plank Strengthening Utilities Commission

CONVENTION TO DISCUSS MANY IMPORTANT ITEMS

Numerous Topics Proposed-Will Work Against Any Kuhio-Rice Fight

A score of "planks" dealing with topics of vital interest to Hawaii wil be passed upon by the Republican territorial platform convention when the G. O. P. delegates meet next Monday morning in the Popular theater to draft their political document.

Republican leaders today outlined some of the more important subjects that will be taken up. One of the chie planks in point of territory-wide inter est is the proposal that more "teeth' be put into the public utilities law Republican legislators and party work ers say that the law passed by the last legislature is excellent to far as it goes but that it does not go far enough and that the experience of the com mission during the past year and r half shows that for it to be effective it must be armed with more powers

Furthermore, they point out that such legislation ought to be generally favored by Hawaiian corporations be cause it will prove the abi'ity of thi: territory to handle its internal affairs fully and impartially.

One plank proposed recently will deel with the attempt of certain con gressmen to make Hawali the location for a national home for lepers. This will be sharply criticised.

Several drafts are being made of a plan severely condemning the Demo cratic administration for its free sugar policy. This will be one of the fea tures of the territorial platform this

Charter Revision Plans, Another subject is that of revision

of the city charter of Honolulu and the county acts of the various coun ties. It is probable that the legisla ture will be asked to afford opportu nity for such revision by placing the issue before the voters in some defin

The subject of education will receive much attention. Vocational training as part of the public school courses will be taken up and discussed and the outlook is now that it will

Homesterding and the handling o public lands, water rights and other covernment assets will be gone into

Amendment of the direct primary act is to be discussed.

One plank ready to go before the convention will condemn the Demo cratic party for its disastrous slasi in the duty on rice, resulting in a se vere blow to that industry in Hawaii No Chairman Selected.

The convention will be called to or der at 10 o'clock a. m. by Chairmar Robert W. Shingle of the territoria central committee. Chairman Shingle said today that he has heard no re ports as to the probable permanen' chairman of the convention. Among those mentioned by other Republicar leaders are Robert W. Breckons and H. L. Holstein of Hawaii. Holsteir may not be able to attend the conven

Influential members of the party de clare that every effort will be made to keep the rival candidacies for delegate to Congress of Prince Kuhio and Sena tor Charles A. Rice from becoming a visiting ships of foreign nations atconvention issue.

"Any attempt to start a Kuhio-Rice fight, or any effort to use the convention or its delegates to promote the candidacy of either the prince or Senator Rice will be frowned upon," said a well-known Republican today. "Such a fight would be disastrous to party prospects, which now are so bright that we feel perfectly safe in predicting a general Republican victory both in the territory and in the various countles."

Pians for Visit of War Vessels Next Year

By C. S. ALBERT.

WASHINGTON, D. C., June 26 .-Secretary Daniels, in a statement re ently announced that the ships of the Atlantic battleship fleet which will 'ead the international naval parade ut of Hampton roads for the opening of the Panama canal next March would eturn from the Pacific coast to Atantic waters after participating in the Panama-Pacific exposition ceremonies.

The statement was issued because the secretary said reference by him esterday to the navy department's plans regarding the forthcoming exesition had been misconstrued as an innouncement that the fleet would be sent to the Pacific coast and there renain for a long time.

The statement is as follows: "Next spring it is the intention of the navy to send as great a proportion of the Atlantic fleet as can be conveniently spared as an escort of honor to ending the ceremonies incident to he opening of the Panama canal. The "leet will accompany the visitors through the canal to San Francisco. which will be reached in April, where 'hey will take part in the ceremonies incident to the Panama-Pacific exposi-'ion. Further than this no definite

plans have been made. "It is possible that a division of four ships will take advantage of this ecasion to visit Honolulu and that another division will visit Puget Sound. The fleet will then return to the Atlantic coast. Whether or not iny of the ships of the fleet will be eft permanently on the west coast has not as yet been determined, al-'hough with the opening of the Panana canal it is of course obvious that there will eventually be more ships BRIGADIER-GENE n Pacific waters than at present."
